Summary of service and health care provision

Placement A

The learning experience

We currently take students for a 2 week placement throughout all operational units in highland . Students will complete tasks already assigned at University in their Placement A workbook. Students should leave with a well developed knowledge of the role and practice of dietitians and the functions which operate in NHS Highland.
--

Placement B

The learning experience

B placements in NHS Highland are currently taking place in the both the community and acute settings. Placements may be split between sites. Staff are committed to quality of care, reflected in ongoing application and review of clinical standards. Staff are all involved in supporting student training and have received clinical supervisory training. Students will be exposed to a wide variety of patient groups however the emphasis is placed on developing the core skills rather than type of
--

patient. Students are also encouraged to become involved in delivering talks to various audiences including patients and health professionals. Students will also participate in audit and health promotion activities.

Placement C

The learning experience

NHSH offers experience across a wide range of clinical specialities in both community and acute settings. The department is committed to quality of care, reflected in ongoing application and review of clinical standards. Staff are all involved in supporting student training and have received clinical supervisory training. Students will be exposed to a wide variety of patient groups however the emphasis is placed on enhancing the core skills rather than type of patient. Students are also encouraged to become involved in delivering talks to various audiences including patients and health professionals. Students will also participate in audit and health promotion activities.
