

GRAY'S SCHOOL OF ART

SHORT COURSE PROVISION MATERIALS LIST

ADVANCED PHOTOGRAPHY
ALTERNATIVE PROCESSES

Please find below some advice with regards to materials for your Short Course. These will be discussed at the beginning and throughout the course. You are most welcome to contact Anne Campbell about your course materials: m.a.campbell@rgu.ac.uk.

Please bring:

- A selection of black & white negatives and a notebook.

A selection of paper will be provided for making small test images. Students may wish to purchase their own paper for making larger final images; however you may want to wait until completing some test pieces before deciding which paper to buy.

The most versatile paper used in all these processes is:

- Ilfords Fibre based Warmtone, semi matt or gloss.
- Foma MG classic.

I also recommend keeping a sketchbook of test samples and processing information.

We will start by examining Lith processes. Students who have previously attended the course may continue to explore their chosen processes.

Please note: any course materials provided are for small scale test and development work only. Any student wishing to develop large or extensive work must seek prior approval from the course tutor and appropriate technician. This will incur an additional cost for materials.
